

Jesse Hofman

Education:

B.Sc., Games, Interactive Media, and Mobile Technology (Fall 2026)

Boise State University, Boise, ID

Skills:

- Programming: HTML and CSS
- Design: Photoshop, Adobe Illustrator, Maya and Procreate
- Game Development: Unity, Unreal and C#

Projects:

Boise Train Depot → GIMM 480 + 490: Senior Capstone I + II (Fall 2025 + Spring 2026)

- **Maya** - Enhanced my skills in Maya to make human models with basic rigging.
- **Collaboration and Communication** - Worked with a large group to recreate the Boise Train Depot from the 1920s/1930s, in collaboration with the History Department at Boise State.
- **Texturing** - Used Substance Painter to create realistic textures for items in the depot.
- **Blender** - Began using Blender to bring in textures into the rest of the project (Built inside Blender).

Beyond the Strip → GIMM 480 + 490: Senior Capstone I + II (Fall 2025 + Spring 2026)

- **Maya (3D Modeling)** - Used to make all my human models and item models. Rendered the images inside as well.
- **Storytelling** - Started by making a bigger story and taking a section to start making comic panels.
- **Concept Design** - Created designs for the characters and vibe for the environment.
- **Procreate** - Used to make the concept designs and to draw textures for the models.

CRUD API Website → GIMM 285: Mobile Web Services II (Fall 2023)

- **HTML** - Used html to make our own website about a topic of our choosing.
- **CSS** - I designed my website to look like a video game. (Fallout)
- **DataBases** - Using a database to keep track of what was added and be able to edit and delete items.

Consciousness and Death → GIMM 250: Interactive Storytelling (Spring 2023)

- **Unity** - The comic was put together and displayed in Unity.
- **Illustration** - I was one of two artists to draw the comic in Procreate.
- **Storytelling** - We had to explain consciousness and death by using video games with our comic.
- **Collaboration** - Worked with a group and split up all aspects of the project to make the comic with two artists, a coder and a writer.
